Hello Ms. Mears:

I believe a lot of your questions will be answered by reading the Polreps (Pollution Reports) located at the following website that I created during EPA's cleanup actions at the Odessa Biodiesel facility.

Region X  
Odessa Biodiesel Site  
Odessa, WA

To visit this site click on the link below.

<http://www.epaosc.org/odessadiesel>

My contractor is in the process of completing a field report that should be ready in the next couple of weeks. I don't recall conducting any soil removals at the facility. The waste streams that we removed are documented on the website.

If after reviewing the website you still have questions or concerns, feel free to contact me at numbers below or via email.

**Subject:** Inland Empire Oilseeds, LLC - 206 W Railroad Ave, Odessa, WA

Dear Mr. Sibley,

AAI is conducting a Phase I ESA for the property at 206 W Railroad Ave, Odessa, WA. Mr. Jerry French at WA Department of Ecology indicated he was trying to contact you on our behalf regarding questions we have due to the site cleanup conducted by EPA in 2015. I just wanted to followup with you regarding the cleanup, and mainly need to find out if any soil removal activities occurred at the site as part of the cleanup.

Any information you can provide is appreciated.

Thank you,

Carol Mears
